Education

Dalhousie University – Bachelor of Computer Science Oct 2024

Experience

Independent Contractor, Uber – Ottawa, ON Jan 2024 – Present

- Maintained independent contracting work while continuing software development projects and technical training, demonstrating self-directed learning.
- Completed over 8600 rides with a 100% average approval rating, providing timely and professional service, demonstrating strong time management and communication skills.

Development Lead - ChemAr (Volunteer), Dalhousie Department of Chemistry – Halifax, NS Sept 2023 – Dec 2023

- Led a team of 6 developers in building a 3D augmented reality chemical compound visualization tool, meeting 100% of sprint goals on time.
- Directed Agile ceremonies and code reviews, fostering collaboration and technical growth.
- Built strong client relationships, providing proactive updates and adapting deliverables to evolving requirements.
- Partnered with senior developers to review the legacy codebase, identifying weaknesses in the project architecture and proposing structural improvements reducing technical debt by ~40%.

Senior Developer - ChemAR (Volunteer), Dalhousie Department of Chemistry – Halifax, NS Jan 2023 – Apr 2023

- Authored over 15 user stories and mentored 3 junior developers via pair-programming, improving team productivity.
- Developed an AR web app using Node.js and Three.js, allowing students real-time manipulation of 3D molecular structures on mobile devices.
- Researched and integrated the PubChem API (PUG REST), into our codebase, to automate fetching and rendering of molecular data into interactive 3D structures.

Control Associate - Seasonal, Bell – Mississauga, ON May 2022 – Sep 2022

- Managed daily work orders for 150+ field technicians, ensuring timely service delivery and balanced workloads.
- Acted as a key liaison between technicians and management, resolving 12+ daily escalations.
- Collaborated with other control associates across departments to balance technician assignments, ensuring all service requests were staffed and workloads were evenly distributed.

Sales Representative, Cellcom – Ottawa, ON Nov 2019 – May 2020

- Surpassed monthly sales targets by an average of 15%, ranking in the top 30% of reps for 5 consecutive months.
- Recommended tailored product solutions by maintaining in-depth knowledge of offerings.
- Sold and upsold mobile plans and accessories to over 500 clients, building long-term customer relationships.
- Maintained client relationships and sales by coordinating with Mobile Business sales reps, directing business clients to the appropriate team to match competitive offers and retain revenue.
